

# SUNNY SIDE UP PAINT COLORS

[www.thesunnysideupblog.com](http://www.thesunnysideupblog.com)

\*You can find pictures of rooms with these colors in my blog header under "Home Sources" or by typing the name of the room in my blog search bar. Remember that the lighting in your room will affect your paint so always paint a large spot on your wall to test the color first. Happy painting! :) xo Erin

Brands throughout my home:

SW - Sherwin Williams (originally Frazee)

DE - Dunn Edwards

BM - Benjamin Moore

\*A lot of my paint was Frazee which has now joined with Sherwin Williams. Sherwin Williams still sells Frazee colors - it is just Sherwin Williams paint. For the Frazee colors, talk to someone at Sherwin Williams and give them my colors/numbers and they should be able to match it for you.

**Exterior Grey:** "Capricorn" SW3233 (we had it darkened 50%)

**Exterior White:** "Snowflake" DEW384

**Exterior Front Door and Shutters:** "Black" DEA187

**Inside White (cabinets, moldings, ceilings):** "Extra White" Pro Industrial SW7006 (semigloss)

**Main Inside Color (entry, living room, hallways, stair wall, family room, kitchen, pantry, downstairs laundry room, mudroom, girls' bathroom, theatre room planked wall):** "Seattle" SW3213

\*Your paint formula will change based on the sheen you use. This is the formula for my "Seattle" flat paint. I used flat throughout most of my house. I used semigloss in all of the bathrooms, laundry rooms, kitchen and my office because it's easier to wipe clean.

CCE*Colorant	OZ	32	64	128
B1 - Black	-	21	-	1
